CAREER OBJECTIVE

Diploma student in Electronics with strong interest in Arduino, PCB Design, IoT, Embedded Systems, and Robotics. Seeking opportunities to apply technical knowledge and develop practical engineering skills through projects and industry exposure.

EDUCATION

Government Polytechnic Mumbai

Diploma (Second Year Passed)

Sem 1: 80% | Sem 2: 83% | Sem 3: 90% | Sem 4: 88%

Gurukul Public School, Baglan, Nashik

SSC (10th): 90%

TECHNICAL SKILLS

- Arduino and Electronics
- 8051 Microcontroller Basics
- Internet of Things (IoT)
- Raspberry Pi Pico
- VLSI
- PCB Designing (Basic)
- Digital Electronics
- Power Electronics

PROJECTS

1.ASTRA Humanoid Robot

- Built a humanoid robot using Raspberry Pi Pico and servo motors.
- Utilized 3D-printed components for mechanical structure.

2.Digital Storage Oscilloscope (DSO)

- Developed a basic DSO using Arduino Uno.
- Worked on signal acquisition and display concepts.

3. AI-Based Paytem Box – Currently Working

- Currently developing an AI-based Paytem Box integrating Core IoT and Electronics.
- Working on sensor integration, embedded systems, IoT connectivity, and AI-based functionality.
- Focusing on developing a smart electronic system with real-time data monitoring and intelligent decision-making.

CERTIFICATIONS

- Robotics and Controls Job Simulation – Johnson & Johnson MedTech via Forage (June 2026)
- AI Upskilling Certificate: Hands-On Development from Model to App – Qualcomm Academy (June 2026)
- Project Manager Job Simulation – Siemens (Forage) (September 2026)

LEADERSHIP & ACTIVITIES

- Successfully hosted 2 inter-college events.
 - Currently active in a student club and event management activities.
 - Hosted and anchored a webinar.
 - CODEAMBLE 2026: Key organiser for CODEAMBLE 2026 — a national-level hackathon run under ZEN Club.
- Involved in sponsorship outreach, logistics, and promotional strategy.
- Strong communication, coordination, and teamwork skills.

INTERESTS

Robotics, Embedded Systems, PCB Design, IoT, Electronics Projects, Technology Learning
